## Tropical Bloom

27 mil

---

Tropical Bloom offers a very similar overall color as Mayan. The main feature of Tropical bloom is the unique floral border, which leans more traditional than Mayan's brick border.

# Mosaic , Siesta Wave, & Stone Seaglass Verona 27 mil

Our most popular liner choices, the three Verona patterns feature a tan pebble base pattern. These patterns are a great choice if you'd like your pool to have a natural look. The water color changes in saturation from the shallow end to the deep end, just as a natural body of water would. Don't be alarmed by how brown the liner is upon install! Once water is in the pool you will be treated with a range of blue-green water color that blends well into most outdoor settings. If you are going for calm and sophisticated, one of these could be the pattern for you!

## Dark Blue Diamond & Samara

30 mil

Dark Blue Diamond & Samara features a blue pebble base. The water color created by these liners is a medium to dark blue. They offer a true blue color, and are a great option if you are looking for a subtle border or more modern feel.

## Collage Mosaic & Beach House Blue Grotto

28 mil

The Blue Grotto liners are the newest offerings for 2024. To get an idea of the style of these liners, take a look at Electric Oxford and Breaking Seawall on the next page. The base patterns are very similar for these liners, so the overall color will be about the same. If you like a true blue liner and find the modern borders of Collage Mosaic or Beach House appealing, then these are a great option.

## Electric Oxford & Breaking Seawall

---

28 mil

Electric Oxford and Electric Seawall are similar to Dark Blue Diamond and Samara in terms of color and saturation. However, the Electric liners feature a more vibrant border, especially Electric Oxford.

The base pattern of the Electric liners also has more variation and movement, which will allow sunlight to bounce around and give the pool more sparkle than the blue pebble base of Dark Blue Diamond and Samara. The Electric liners are very popular for those who want a vibrant blue pool .

## Covington and Breton Braid

---

27/20

These two liners are very similar; they use the same base pattern and both have borders that blend in well. In terms of color, the pool will read a medium to dark blue..

## Bayview Slate and Siesta Wave Tan

---

20 mil

Bayview Slate and Siesta Wave Tan are great light to medium true blue options. The base pattern has a lot of white in it which helps the water to sparkle in the sunlight. If you want a vibrant and playful look, these could be the pattern for you!

# Stacked Marble and Rustic Diamond

20 mil

Stacked Marble and Rustic Diamond both use a gray pebble base pattern. This will create an effect similar to the Verona liner patterns: a range of blue/green water that is more saturated in the deep end. These patterns are a great choice if your home exterior leans more gray than tan.

## Sunburst

20 mil

Sunburst has a beautiful tiled base pattern with lots of movement. The overall color will read as a light to medium aqua blue. This popular patterns will look great in almost any backyard.

## Wave Ocean Pearl

20 mil

Wave Ocean Pearl is one of the newest liner patterns, and has quickly become one of the top choices. It features a mosaic base and border in shades of blue and gray. The addition of gray allows the water to take on a slightly more aqua/green tint. This is a great in between option if Stacked Marble/Rustic Diamond are too gray for your tastes or backyard design, but you like a shade that's not true blue.

Cambridge Aquarius has been a favorite liner year after year. This liner gives your pool a classic dark blue shade, but the white in the liner still allows for light reflectivity and sparkle.
